*Handwritten signature and date: 05/09/12*

Before we install moleecslar enhance the average fuel consumption per kilometer is 0.45 liter

After we install the average liters per kilometer is 0.41liter

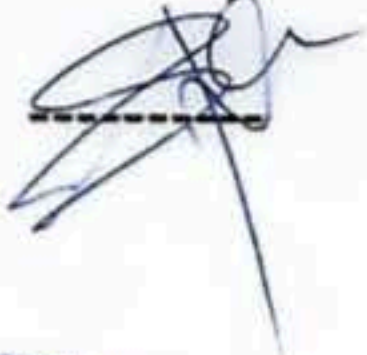

Percentage decreament= $100\% - ((100 \times 0.41) \div 0.45)\%$

$$100\% - 91.11\% = 8.89\%$$

### Notification

- ❖ In Idle running the fuel consumption not considered
- ❖ The air refining device result also need a technology (emission measurement system)
